

National Molecular Microbiology Diagnostics Users Group (NMG)

Fourth ANNUAL FALL MEETING

The National Molecular Microbiology Diagnostics Users Group (NMG) is an established working group that includes over 100 laboratorians using molecular methods for clinical microbiology diagnostics. Members are from hospital, private and public health laboratories from across Canada. The group has the following goals:

- Develop an integrated national network of clinical microbiology laboratory experts to support molecular diagnostics by collaboration and communication through discussion groups and an annual fall meeting.
- Make recommendations, set guidelines and develop proficiency and policy regarding molecular microbiology testing.
- Develop processes for sharing methods, specimens, data and information.

Please plan to attend our **Fourth Annual Fall Meeting, October 18-19, 2010, in Hamilton, Ontario.**

Preliminary Program:

- October 18, 2010
 - Industry – Sponsored Workshops
 - Exhibition-A chance to meet with Industry Representatives
 - Evening Social Event (sponsorship to be determined)
- October 19, 2010
 - Presentations on Molecular Diagnostics
 - **Exhibition-A chance to meet with Industry Representatives (NEW)**
 - Working Group Reports
 - Planning for NMG Activities in 2010
- **Attendance is free for laboratorians, students and medical staff, however, we require you to fill in a registration form (below) as the number of spaces for participants is limited.**
- **Travel grants will be made available for those traveling from out of province.**
- **Additional information on accommodation and details on the program will be available shortly.**
